A driven and adaptable professional with a passion for problem-solving and a proven track record of delivering results. Leveraging a blend of technical expertise and strong communication skills, I thrive in dynamic environments where innovation and collaboration are paramount. With a relentless commitment to excellence, I excel at translating complex challenges into actionable solutions. Ready to bring creativity, determination, and a collaborative spirit to drive success in any endeavor

## WORK EXPERIENCE

### Senior Analyst Capgemini

06/2022 - 08/2024

Hyderabad

Achievements/Tasks

- Started as a BRE (Business Rules Engine) Analyst, responsible for documenting business rules and requirements for projects.
- Created comprehensive documentation to outline business rules, processes, and requirements, facilitating clear communication between stakeholders and development teams
- Demonstrated proficiency in understanding business needs and translating them into technical requirements.
- Currently transitioning to a role focused on Spring Boot development, where I am actively involved in the design and implementation of backend solutions.
- Working with Spring Boot to develop robust and scalable applications, leveraging my understanding of business processes gained from previous roles

## PERSONAL PROJECTS

### Anime Merchandise E-commerce Website - Animesense (07/2023)

- Developed a full-stack e-commerce website specializing in the sale of anime merchandise products
- Utilized Spring Boot for backend development to create a robust and scalable server-side application.
- Implemented React.js for frontend development, designing an intuitive and visually appealing user interface.
- Integrated payment gateways and implemented secure authentication using industry-standard protocols

## EDUCATION

### B.tech

Lovely Professional University

05/2018 - 06/2022
