LOKESH CHARY GATTOJI

Java Full Stack Developer

Hyderabad, India • 9381572080 • Email: lokeshchary.works@gmail.com

Website: https://findlokeshchary.netlify.app • LinkedIn: www.linkedin.com/in/lokesh-chary-gattoji/

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java
Frontend: React, Redux, HTML, CSS, Three.js, React Three Fiber
Backend: PostgreSQL, SQL, MongoDB, NoSQL, RESTful API, Hibernate, Microservice Architecture, ORM Framework, Spring Framework
Tools: npm, GIT, GitHub, Visual Studio Code, Postman, STS, Datadog, Splunk

PROFESSIONAL EXPERIENCE

Capgemini, Hyderabad, India
Senior Analyst   June 2022 – Present
Client – Darden Restaurants (June 2022 – June 2024)

- Started **as BRE (Business Rule Engine) Analyst**, documenting business rules and requirements for projects.
- Demonstrated proficiency in understanding business needs and translating them into technical requirements.
- Engaged in code refactoring and remediation efforts to improve application quality and maintainability.
- Promoted continuous iteration of development and testing in collaboration with **20+ cross-functional team members**.
- Designed and implemented **RESTful endpoints for the Togo Check System**, enabling efficient and reliable transactions.
- Executed comprehensive testing strategies, including unit and integration testing, to ensure robust application functionality.
- Analyzed and developed 30+ features and bug fixes, delivering on time with high quality.

Client – Charter Communications (Sept 2024- Present)

- Designed and developed high-performance RESTful APIs, ensuring adherence to best practices, and delivering solutions that meet business needs.
- Improved **SonarQube** code quality by identifying vulnerabilities, refactoring code, and enhancing code coverage through JUnit test cases.
- Played a key role in the Defect Roster, identifying, **debugging**, and resolving critical production issues within tight deadlines.
- Monitored and validated services using advanced observability tools such as **Datadog** for real-time performance monitoring and **Splunk** for detailed log analysis.
- Collaborated with cross-functional teams including DevOps, QA, and Product Owners to improve system reliability and feature enhancements.

PERSONAL PROJECTS

Web Application: 3D-Portfolio • Code: 3d-portfolio-Code
A web-based interactive 3D portfolio that showcases projects using real-time rendering and animations, providing an immersive experience for users.   June 2024

- Developed the frontend with **React.js**, **React Three Fiber, React Drei** to create a dynamic and visually engaging portfolio.
- Integrated 3D models and animations to showcase projects in an immersive, interactive environment.
- Optimized performance and ensured cross-device compatibility with efficient rendering techniques.
- Implemented responsive design to ensure seamless user experience across different devices and screen size.
- Leveraged React Drei for custom camera controls, advanced lighting effects, and pre-built 3D components, streamlining development and improving interactivity

E-commerce Website: Animesense • Link: https://anime-sense.vercel.app/ • Code: AnimeSense-Frontend-Code
A full-stack e-commerce platform for anime merchandise, offering a seamless shopping experience with secure transactions and an intuitive UI.   July 2023

- Developed a full-stack e-commerce website specializing in the sale of anime merchandise products.
- Exhibited React mastery through frontend implementation of products view, order history, and cart functionality which live on the state and managed through Redux.
- Designed and implemented backend APIs using **Spring Boot**, **Hibernate**, and **SQL** to handle product listings, user authentication, and payment processing.
- Integrated **secure payment gateways** and implemented authentication protocols to ensure transactional security.

EDUCATION

B. tech, Lovely Professional University, Punjab   Graduated Mar 2022

CERTIFICATES

AWS Certified Cloud Practitioner (07/2023 - 07/2025)
- Demonstrates foundational knowledge of cloud concepts, AWS services, security, and compliance. Validates the ability to define basic architectural principles and demonstrate an understanding of the AWS Cloud and its global infrastructure.

Java full stack-Practitioner level (2024)
- Demonstrates my practical knowledge and skills in Java full-stack development. It covers essential technologies and frameworks, including Java, Spring Boot, React, and SQL, enabling me to build scalable and efficient web applications. The certification validates my ability to handle both front-end and back-end development tasks, making me proficient in developing complete software solutions.

Google & AWS Generative AI Certification (2024)
- Demonstrates expertise in building and deploying AI-powered applications using Google and AWS AI technologies.

Agile Software Development (2023)
- Demonstrates proficiency in Agile methodologies for software development, emphasizing iterative development, continuous collaboration with stakeholders, and adaptability to changing requirement. Covers Agile principles such as delivering working software frequently, embracing change, and fostering a collaborative team environment.

LANGUAGES

- **English** – Full Professional Proficiency.
- **Hindi** – Full Professional Proficiency.
- **Telugu** – Native or Bilingual Proficiency.

INTERESTS

- Exploring new technologies and AI advancements.
- Traveling and exploring new places.
- Cricket.
- Listening to music and podcasts.
